

18 Conversations

.....

You're curious about Judaism and what this 3,000 year old constantly evolving tradition has to offer your life?

Welcome

In this course I will plan to share with you some of the highlights, core concepts, master stories, key figures and building blocks of what Judaism means to me, what it has meant to so many generations before us, and why I find it a compelling path towards a life of meaning, mindfulness, creativity and connection.

Each of the 18 concepts chosen to outline this course offer a glimpse into Judaism's emphasis on Wisdom, Soul, and Together: a life of learning, spiritual practice and communal responsibility. This is an everybody-friendly course, open to all seekers regardless of background or beliefs. Curiosity, respect for others, open mind and heart are mostly all that's needed. Each session will be a conversation, encouraging multiple perspectives, inquiries and questions.

Inspiring readings for each week will be assigned ahead of time and other reading and viewing options will be suggested as the course progresses. The group's digital communication and file sharing will be crowdsourced and co-determined once the group is formed.

I look forward to meeting you and going on a meaningful journey together.
